

CHILD WELFARE RESIDENTIAL

RESIDENTIAL PROGRAM

HOPE HAS A HOME.

TheVillage's Child Welfare Residential Program provides vital services to teenage girls who are referred for placement by county children and youth agencies due to instability in their current living arrangements. Our goal is to help them if they need more support than their current home, group home, or foster home can provide, or as they step down from a mental health residential treatment program.

OUR CAMPUS IN ROSEMONT, PA

Our 10-bed, Joint Commission accredited program is located on a 43-acre campus in the suburbs of Philadelphia. It combines access to treatment, education coordination, life skills development, and a living environment with 24-hour supervision. Our experienced and caring experts in each area communicate closely with each other and with the parent or legal guardian to provide the most appropriate care and support.

Core components of this program include: case management services, life skills and recreational groups, Health Services Department, pastoral care services, referral and coordination of recommended mental health and behavioral health services, and referral and coordination of education and counseling services.

SERVING ADOLESCENT GIRLS

Our single gender focus enables us to provide specific programming that is particularly effective with adolescent girls, leading them on a path of self-discovery, self-confidence, and self-reliance. Our comprehensive approach addresses the physical, mental, and spiritual well-being of the individual, helping her to identify, appreciate, and develop her unique character and gifts.

OPPORTUNITIES IN THE COMMUNITY

Residents of theVillage's CWR program are able to take advantage of many community-based activities. Community connections for residents include memberships at the local YMCA, classes at the Main Line Arts Center, and involvement in service programs.

SUPPORTING MIND, BODY, AND SPIRIT

TheVillage offers a therapeutic program of structured activities for after-school hours and weekends, both on campus and in the local community. Staff and volunteers provide a wide range of activities including, sports, arts, crafts, music, life skills training, career education, and more. We encourage physical activity as part of promoting a healthy lifestyle. The air-conditioned gym is the center of many indoor activities, and our outdoor swimming pool is very popular with residents during the summer months. TheVillage's campus is used for a wide variety of individual and group physical activities.

Our Health Services staff coordinates all medical and dental needs and provides transportation for residents to their appointments.

The Radnor Township School District provides education in the community to CWR residents. Tutors are available to assist with specific academic needs. The girls are encouraged to participate in extracurricular school activities, including sports programs and dances.

The admission staff completes a trauma screening as a part of the initial assessment and will provide a referral for counseling to theVillage's Outpatient Therapy Program if desired. This includes availability of a psychiatrist for consultation and medication management.

EVIDENCE-BASED, TRAUMA-INFORMED CARE

TheVillage, a leader in trauma-informed care, utilizes the Sanctuary Model as a framework for healing. This model focuses treatment around the concept of “SELF.”

Using the Sanctuary Model and trauma-informed interventions as a guide for all activities, girls learn coping and calming activities and focus on healthy choices and the hope for a brighter future.

Within this framework, our staff works with each girl to help her understand and recognize the behaviors and emotional responses that have interfered with her ability to live within a family home or to function within a community setting or school.

A multi-disciplinary team works to develop an individual service plan (ISP) that defines the individual, family, social, and academic goals, and specific outcomes to be mastered in order for the adolescent to return home or function more independently in a less restrictive community setting.

Faith-based activities at theVillage are provided to residents who elect to participate in them. TheVillage Chaplain is an integral part of the treatment team and uses a nonjudgmental, ecumenical approach to assist the residents in an exploration of values, identity, and difficult questions. The Chaplain also helps residents explore and participate in their own faith traditions.

theVillage: Hope in Action since 1877

The work we do here at theVillage makes a difference for individuals, families, and communities.

Founded in 1877, theVillage is committed to reaching the most vulnerable children and families in our communities and delivering assistance that lasts. Through trust, compassion, commitment, and faith, we work with children and families to focus on the future—defining their unique goals and paving the specific steps needed to achieve those goals with stability and wholeness. We are persistent in the face of major challenges, assisting our clients to overcome trauma and a spectrum of circumstances arising from poverty, mental illness, addiction, and abuse.

We are hope in action, healing in purpose, organized around evidence-based, innovative practices, in collaboration with individuals, families, and communities.

TheVillage is accredited by The Joint Commission (TJC), certified by the Sanctuary Institute, and is an active member of the Pennsylvania Council of Children, Youth and Family Services.

“As a resident at theVillage’s CWR program I was able to receive the additional support I needed while having the opportunity to participate in activities at my school and in the community.”

- Pamela, Former CWR Client

Call today to schedule an appointment to visit and tour our campus. Our experienced admissions staff is here to meet with you and to answer all of your questions.
